

The top of the page features several stylized coronavirus icons in black and red. The background is a mix of white, grey, and red geometric shapes.

# **CORONAVIRUS** **COVID-19**

Your safety at USCAP's Interactive Center is a strategic core value of the Academy.

- The new international headquarters and Interactive Learning Centers have been designed with an advanced heating/air conditioning system that includes air scrubbers to filter biological particles. Fresh air flow is a special feature of the architectural design.
- Proof of COVID-19 vaccination is required for faculty, attendees and staff. "Fully vaccinated" is defined as individuals who have received all doses of a COVID-19 vaccine at least 14 days prior to attending an event or returning to work.
- Requirements for and use of masks are dictated by and compliant with the *current* highest standards of public health guidelines established by the State of California, Riverside County or the City of Palm Springs.
- Individuals entering the facility will be required to have a temperature check, attest that they are free of COVID symptoms, and sign a waiver indemnifying USCAP. Febrile or symptomatic individuals will be denied entry, and will be required to obtain a rapid COVID test with documented negative result to be considered for admission to the course. A full refund for course tuition will be offered to anyone who is denied entry due to this requirement.
- Participants are asked to bring their own laptops or tablets.
- Attendees will reserve a consistent place at the personal use and teaching microscopes.
- Tables, microscopes and other equipment will be regularly disinfected.
